SOFTWARE DEVELOPER

As a recent graduate in Computer Science, I am passionate about software development and have a solid foundation in programming languages such as Python, HTML/CSS, Kotlin and Dart. During my studies, I worked on several projects, including a web-based e-commerce application and a Quiz mobile applicaton. My problem-solving skills and ability to work well in a team make me an asset to any software development project. I am eager to learn and contribute to innovative solutions that impact users worldwide.

SKILLS

- Android Studio
- Dart
- Kotlin
- HTML/CSS
- Firebase
- Python
- Flutter
- Java

EDUCATION

Degree
Bachelor of arts, Computer Science
University of Mumbai | 2021 - 2024

Higher Secondary Certificate
Maharashtra Board| 2019 - 2021

PROJECTS

QUIZ APPLICATION
Android Studio, 6 months
Developed an interactive quiz application using Kotlin and Android Studio, with Firebase as the backend. The app allowed students to test their knowledge through an intuitive user interface. Also developed a feature to release quizzes on specific dates and integrated a date picker for filtering quizzes based on specific dates. At the end it provided students with feedback by displaying correct answers and explanations for incorrect ones.

IoT PET FEEDER
Arduino & Blynk, 6 months
Automatic pet feeder created using NodeMCU8266 chip and Blynk IoT application. This home automation device help pet parents to be able to feed their pet from any distance with the help of NodeMCU8266 onboard WiFi module. It had featured like live monitoring(camera) and feeding schedules displayed on Blynk IoT application.
